**RE : 11/11/2016 ad for Junior Engineer (T4)**

Dear Amit Yadav,

You need a sharp Junior Engineer with great attention to detail and excellent skills. My education and training make me an ideal candidate for this position.

My educational background has prepared me for the role of Junior Engineer. In particular, my study of MCA-computer science has given me a solid background so that I can perform all the required duties. In addition to it I have also a 6 month experience of work. I am eager to contribute my enthusiasm and up-to-date skills to the Mindtree team.

I'd be happy to provide greater detail about my skills and experience during an interview. Please call me at your earliest convenience. I am very interested in meeting to review your needs and possible solutions I could bring to the table.

I would greatly appreciate the opportunity to work with and learn from you and your talented team. I look forward to speaking with you soon.

Sincerely,

Premnath Christopher
